Subject: Complaint Regarding Blocked and Overflowing Drainage in [Area Name]

Respected Sir/Madam,

I am writing to bring to your attention the serious problem of blocked and overflowing drainage in [Street/Colony Name], [Area Name]. The issue has continued for the past [number] days and is now affecting the daily lives of all residents in the locality.

The drain near [landmark] is clogged with garbage and silt, and sewage water is overflowing onto the road. This has led to the following problems:

1. Foul smell throughout the day, making it difficult to stay indoors or walk outside.

2. Stagnant water that is breeding mosquitoes and increasing the risk of dengue, malaria and other diseases.

3. Slippery, waterlogged roads that are unsafe for children, senior citizens and two-wheeler riders.

I request you to kindly direct the concerned sanitation department to inspect the site, clear the blockage and carry out regular cleaning of the drain at the earliest. I also request that a long-term solution be considered so that this problem does not recur, especially during the rainy season.

I have attached photographs of the affected area for your reference. I would be grateful if you could inform me of the action taken and the expected date of resolution.

Thank you for your time and prompt attention to this matter.

Yours sincerely,

[Aarush]
